

RMC **Knock Out Test Plugs**

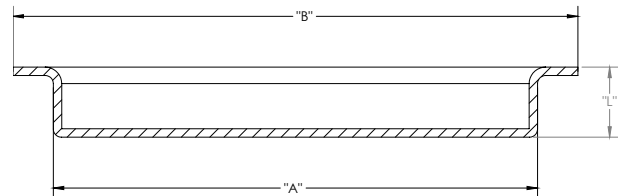

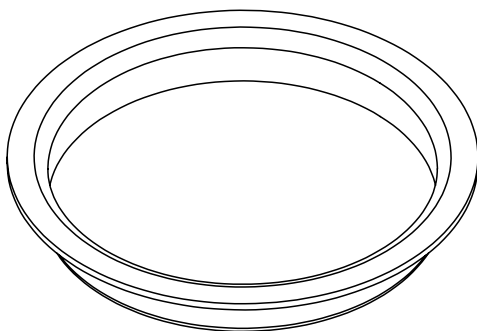

Plastics

Our full line of Made in the U.S.A. inset Knock Out Test Plugs are designed for easy and economical leak testing of your plumbing system before final installation. Plugs can be knocked out with a hammer once testing is completed.

- Use with Schedule 40 ABS or PVC DWV piping.
- Multiple sizes to fit your pipe.
- Test plug is solvent welded into the pipe end.
- Knock out center.
- Made with high impact polystyrene.
- Also prevents debris from entering plumbing system during construction.
